2014 ANNUAL
**BCI AUSTRALASIAN
AWARDS**

PAN Software wins Business Continuity Innovation of the Year for its Business Continuity Module within riskcloud.NET

Melbourne, 17th October: The BCI Australasian Awards recognise outstanding contribution of business continuity professionals, organisations and products.

Hosted in Melbourne Australia, at a prestigious gala event, PAN Software was awarded the Business Continuity Innovation of the Year for its Business Continuity Module within [riskcloud.NET](http://www.riskcloud.NET). *"This is a validation of PAN Software's commitment to continuing product innovations that excel in ease of use, functional breadth and business impact. As a part of the [riskcloud.NET](http://www.riskcloud.NET) product suite, the BCM module compliments the other disciplines within the product such as Risk, Safety and Compliance to ensure organisational resilience"* said George Pantazis, CEO PAN Software.

All winners from the BCI Australasian Awards 2014 will automatically be entered into the BCI Global Awards that take place in November during the BCM World Conference and Exhibition, 5th to 6th November 2014 in London.
